S1 Table. Mitochondrial genomes used in the experiments. The first 30 rows form the complete main-grid panel. Taxonomic labels follow the panel classification, with the family of *Mus musculus* corrected to Muridae. The final two records are auxiliary references or controls. NC_012775 is excluded from the new main grid because its identification as a distinct interspecific *Saimiri* reference is uncertain (Methods).

Species	Family	Order	Accession	Use
Lagothrix lagotricha	Atelidae	Primates	NC_021951	grid
Ateles belzebuth	Atelidae	Primates	NC_019800	grid
Alouatta seniculus	Atelidae	Primates	NC_027825	grid
Aotus azarai	Aotidae	Primates	NC_021939	grid
Callithrix penicillata	Callitrichidae	Primates	NC_030788	grid
Callimico goeldii	Callitrichidae	Primates	NC_024628	grid
Leontopithecus rosalia	Callitrichidae	Primates	NC_021952	grid
Saguinus oedipus	Callitrichidae	Primates	NC_021960	grid
